- Morning care available with breakfast
- After school care available with snack

Victoria Kubica
School Principal

What makes us special...

In parents own words...

"Our daughter attended AMA for a few years, and we absolutely loved our time there. The teachers were always happy to see her each day, and they really took the time to get to know her and learn the best teaching styles that worked for her. She came home every day with exciting stories to tell and new skills to show off. We really loved our time there!"

Melissa G. (Parent)

"There are truly no words to sum up the experience at AMA for our 2-year old daughter, Reese. The staff at AMA have become family and we would never consider taking our children anywhere else. Reese feels loved as soon as she walks through the door, which makes us feel wonderful when we leave her for the day. We know she is not only having fun but also receiving quality education that will serve her well as she transitions into JK and beyond."

Rebecca and Shawn M. (Parents)

"My son was here for 3 months. We left because we had to move for business. This is a really wonderful school for children to start their whole life. Teachers are not only teachers, they make you feel like they are family and friends. Highly recommend."

Xue G. (Parent)

The AMA team was very accommodating to the unique needs of our son who has food allergies. He started out as very shy and soft spoken and blossomed into a super smart, confident and well-mannered young man. My husband and I will be forever grateful to AMA and for the vital role they played in our sons' education. Thank you, AMA!

Taryn

Thank you so much for everything you have done for Avery over the past two years. We have seen Avery grow into such a smart, confident little girl while she has been at AMA. Continue to do the amazing job you have been doing!

Avery's Parents

Thank you for everything you do and for fostering a great environment for holistic learning and development. We both recognize and appreciate the hard work that goes into creating such an environment. We are happy our son has you as role models!
